VirtuGuard™

Take Control of Your Property with VirtuGuard™

VirtuGuard™ is an interactive remote monitoring service. From U.S.-based Command Centers, Agents have access to live video surveillance streams and recorded video from your locations through security cameras and other infrastructure installed on your property. This security infrastructure, combined with AI technologies, alerts Agents in our command centers to activity/events as they occur in near real-time.

Services Offered

Interactive Monitoring: AI detects suspicious activity and alerts Command Center Agents to respond in real-time.

Remote Tours/Escorts: Random or scheduled patrols are conducted to proactively detect suspicious activity.

Audio Services: Agents can intervene in real-time through audio speakers to deter potential or ongoing unwanted activity.

Video Audits: Improves operational efficiency by virtually examining and reporting on the way a company operates.

No Long-Term Contracts

100% Satisfaction Guaranteed
